

Student Outreach Services (S.O.S. Rosen) provides students equal opportunity to get involved in professionalism, leadership, service and events throughout the University of Central Florida's regional campuses.

The goal of the Rosen Student Forum, an extension of Student Outreach Services is to further the sense of spirit and community on the Rosen College campus. This includes, but is not limited to, surveying student opinion, advocating for Rosen College student needs, representing Rosen College students, hosting events at the Rosen College and providing programming at special events.
