

**Stephanie De Nobile**

Hometown: Lodi, New Jersey

Graduation Year: 2021

Major: Hospitality Management

**What is your most memorable experience while studying at Rosen College?**

In SLS1501, we were given an assignment to interview someone who has our dream job. I got to interview an Entertainment Manager from Walt Disney World, and because of that assignment, I'll have this connection for the rest of my career.

**Have you ever gone on a site visit while at Rosen? If so, where and why did you enjoy it?**

I was taken on a tour of the Universal Orlando resort hotels in one of my classes, and it was so amazing! I had never previously thought that I would ever work in hotels, but this opened my eyes to a new section of the hospitality industry.

**Name your favorite assignment or project you've completed at Rosen.**

In my Food Prep class, I got to create and design a restaurant and menu. Ever since I was little, I dreamed of one day opening my own bake shop, and this class allowed me to make that happen.

**Do you have any advice for new or prospective students on working collaboratively in the hospitality industry?**

Every job includes some collaboration work, and my best advice would be to be patient, but also put your ideas out there. Try to find commonalities between you and your co-workers!
